TECHNICAL SKILLS

Languages: Python, Java (Basic), SQL

SOFT SKILLS

Problem Solving, Communication, Teamwork

EDUCATION

B.Tech - Information Technology **2023 - 2027**
PSNA College of Engineering and Technology
CGPA: 7.2

Higher Secondary(XII) **2022 - 2023**
O.ER.M Govt Higher Secondary School , Paganeri
Percentage:71.5

PROFESSIONAL SUMMARY

Motivated Information Technology student with strong expertise in Python and SQL. Experienced in developing smart automation systems, NLP-based applications, and computer vision projects. Passionate about building scalable and efficient software solutions through teamwork and logical problem-solving.

PROJECTS

Fake Skill Detection in Resumes
Python, spaCy, FastAPI, MongoDB, React.js

- Built an NLP-based system to detect fake or exaggerated skills in resumes.
- Generated authenticity scores for recruiters using AI techniques.
- Implemented recruiter dashboard for skill verification and resume analysis.

Face Recognition Attendance Management System
Python, dlib, face_recognition

- Developed AI-powered attendance automation using facial recognition.
- Reduced manual attendance effort with accurate face verification.

Smart Shopping Website
Python, OpenCV

- Developed smart supermarket billing system using barcode scanning.
- Integrated QR-based payment functionality.

CERTIFICATIONS

- Python Essentials 1 - Cisco Networking Academy / Python Institute
- Red Hat Training: Getting Started with Linux Fundamentals (RH104 - RHA
